## PSYCHOLOGY

Dear Student,

We're so thrilled that you will be joining us in the Fall! You should have already received information from your college regarding the [New Student Site](#), setting up your e-mail, asking questions of your advisors online, and college orientation.

As a Psychology major, we hope you'll take advantage of the resources we've compiled, starting by thoroughly reviewing our website. We recommend starting with the [Major Requirements](#) and [New Students](#) areas, and moving on to [Learning Opportunities, Policies and Procedures](#), and [Resources](#). We also highly recommend that any students interested in Research (including Clinical Psychology research) consider applying for the [Honors Program](#) this Fall.

There are no restrictions on the number of students who can earn degrees within the Psychology Department, and you may switch between our majors at any time beginning on the first day of classes in the Fall. We hope that you will find the major that best meets your needs and would be happy to discuss your options with you.

The Psychology advising team is here to support you during your transition to UC San Diego. We plan to contact you first via the New Student Site within the next three weeks with an introduction and some basic advising guidelines. Later in the summer, we'll contact you again with personalized enrollment suggestions and other information relevant to you, specifically. We hope you'll also join us in August or September for an orientation session; if you attend one of our Transfer Orientations, you can also sit down for a one-on-one appointment with an advisor.

This packet includes some handy resources to help you be successful as a new Transfer Student. After reviewing, please feel free to get in touch with any remaining questions. We look forward to speaking with you this summer, meeting you at Orientation, and helping you in the Fall!

Sincerely,  
Kristi MacKenzie and Elisa Suter

## ORIENTATION AND ONE-ON-ONE ADVISING

All incoming transfer students are encouraged to take advantage of our proactive advising and Orientations.

### NEW STUDENT SITE

You will receive personalized enrollment recommendations in July or August through the portal on the [New Student Site](#). Throughout the summer you can send us questions there 24 hours a day (we'll get you answers within 2-3 business days). If you do not receive your recommendations by August 17th, please contact us via the portal.

### PSYCHOLOGY TRANSFER ORIENTATION AND ONE-ON-ONE ADVISING

We recommend that you register for one of the Psychology Orientation sessions specifically marked for Transfer Students; these include both an introduction to the department and our majors, and a 15-20 minute one-on-one session with an advisor to plan your Fall quarter classes and create an academic plan. Sessions are held in August and September on campus; we are not able to accommodate telephone or Skype appointments at this time. For additional information, please see the Psychology Department [website](#).

### PSYCHOLOGY DEPARTMENT ORIENTATION

Students unable to attend a Transfer Orientation session may choose to register for one of our more general Department Orientations, offered during Welcome Week. Department Orientations do not include one-on-one advising.
